CHESS ENRICHMENT is a FUN, EXCITING and DYNAMIC PROGRAM providing an ability to enjoy chess and also develop skills that will benefit all academic learning. The session will include the fundamentals and move into opening theory, middle game tactics and strategies and end game combinations. Each student will move to a new level of expertise. Register TODAY!

Girl Power Yoga Club

By Mission Propelle

FRI | Grades K—5 \$189

Mission Propelle empowers girls in elementary school to discover who they are, what they believe, and how to advocate for themselves. We accomplish this through an after-school program that combines yoga, reading, and mentoring. In each one-hour class, girls develop mindfulness, deep breathing techniques, and self-confidence as they practice yoga. They learn how to solve problems by reading original storybooks starring Dottie Tov, a relatable and age-aligned female protagonist. The girls discuss the content of the book and how it relates to their own life. Throughout class, girls learn to apply leadership skills in their everyday lives as they receive situation-based mentorship from trained instructors. All girls receive digital downloads of the original storybooks each week!
ALL STUDENTS RECEIVE A T-SHIRT! *Collect a new shirt each term. New students receive their very own yoga mat!

Jedi Engineering W/ LEGO Materials

By Play-Well Technologies

THU | \$270 Grades K—3

The Force Awakens in this introductory engineering course for young Jedi! Explore engineering principles by designing and building projects using LEGO® materials such as X-Wings, R2 Units, Energy Catapults, Defense Turrets, and Settlements from a galaxy far, far away. Create motorized and architectural projects with imagination and engineering to defeat the Empire!

Ends at 4:30pm.

Origami Paper Jam

By Skydog Workshop

WED | \$176 Grades K—6

Origami is the art of folding paper! Take one square of paper and you can fold it into birds, bugs, flowers, fidget spinners, Pokemon, Minions, and so much more! Every week we explore all the ways we can use paper to create something unique, and they're yours to take home! Try something new, see what happens! Let's create together as we develop our fine motor skills, cooperative learning, and spatial reasoning. Come jam with us as we fold it down after school!

Sense-ational Science

By Mad Science

TUE | \$255 Grades K—6

Junior Mad Scientists will harness heat energy, learn the science behind heat movement and explore the properties of both light and color. They will investigate the power of magnets, examine curious optical illusions, make their own periscope and analyze the amazing properties of food. Children will get to know their taste buds better and witness a hair raising demonstration of static electricity and much, much more!

Sticky Fingers Cooking

THU | \$248 Grades K—5

Let your child release their inner chef! Students will prepare and eat healthy, globally inspired recipes all while learning to cook in a fun, engaging and real-world way! Our Chefs reinforce kitchen skills associated with our recipes and emphasize each area of cooking—terminology, ingredients and fun nutrition facts (even a few bad jokes!) We will practice measurements, use a wide array of cooking utensils all while preparing the freshest ingredients. Full recipes will be created each class with our AWESOME master chef Sticky Fingers Cooking instructors.

Soccer Skills—Rookie

By We Got Game

MON | \$165 Grades K—2

Players to maintain and develop soccer skills. Techniques will be refined through ball manipulation exercises, games based on technical themes, and small-sided soccer games designed to enhance repetition and enjoyment along with promoting healthy competition and encouraging good sportsmanship.
